Hello Professor Ibrahim,

It has been great getting to work on this project with you this semester. In this email, you will find the links needed to access all of the project deliverables including our Google Drive, our GitHub link, and our website link. Please reach out if any links don't seem to be working as expected. We have also included a solving guide for the cyber escape room, attached as a PDF.

Link to GitHub: **https://github.com/nate-roper/cyber-escape-site (https://github.com/nate-roper/cyber-escape-site)**

Link to Website (game hosted on site): **https://nate-roper.github.io/cyber-escape-site/ (https://nate-roper.github.io/cyber-escape-site/)**

In the Google Drive, you will find many of our documents organized by folder including client and team meeting notes, video scripts, digital and physical clues, and storyboarding documents. Please be sure to download and keep all the files in the drive should you need them at a later date. Our team will be graduating around December 10th and will become unavailable for contact then but will be available for any questions up until December 2nd.

Thank you again for a wonderful semester!

Best,

Cyber Escape Room Development Team
